

Intercom Station Model IC2P/IC3P

Description:

The Corvinus Electric IC2P Intercom station is designed to provide long-lasting audio communications from a “call-in” point to a central control. The IC2P utilizes piezo-electric switch technology, which is impervious to dust and water.*

Rev. 1/6/2026

Features:

- 8 ohm speaker with 25 oz ceramic voice coil
- Durable piezoelectric switching*
- Tamperproof speaker grill
- Mounts in 2-gang box (3-gang box = part # IC3P)
- Stainless steel face plate

* Can be ordered with a mechanical switch or a Corvinus Electric TouchBolt™ switch instead of the piezo

Specifications:

Power:

- 2.5", 12 watt (6 watt rms)
- Voice coil 8 ohm impedance
- 25 volt audio transformer - 1/4, 1/2, 1, 2 & 4 watt taps

Dimensions: 4.5" H x 4.5" W
